“ As we expand our footprint, we will be able to assist our clients in co-ordinating their operations seamlessly across the world.”

We are a medium sized accounting practice established since 1987.

We have been providing an extensive range of financial services at various stages of our clients' business operations. From establishment of local entities to ongoing consultations, our services encompass the entire spectrum of assurance, accounting, tax and other compliance requirements. By combining our support capabilities with proactive advisory services, we empower our clients to effectively structure, streamline and control their business operations and in the process, enhance strategic business decisions.

The ever-changing global equation has brought about many challenges in the global economy. As businesses continue to extend their operations across the globe, scalable integrated professional services have become a vital component to ensure that these operations retain their flexibility, efficiency and profitability which are intrinsic to successful management.

At Acutus, we support our clients' businesses especially those with investments in major economic centres throughout the Asia Pacific Region. By continuing to expand our footprint, we are able to offer an integrated solution to meet the demands for good financial oversight, which is crucial in corporate growth, and effective resolutions to myriad of issues unique to each jurisdiction across Asia. On our international capabilities, Acutus is an

independent member of Abacus Worldwide, an international association of independent accounting, consulting and legal firms. Our membership with Abacus Worldwide strongly enhances our ability to provide assistance, referrals and solutions to our clients with international business needs. It is without doubt that clients of Acutus will benefit directly through the resources and exchanges that we have with our member firms worldwide.

As we expand our footprint, we will be able to assist our clients in co-ordinating their operations seamlessly across the world. The Acutus footprint is invaluable in meeting the needs for immediate local support as well as scalability and transparency in global operations. An intimate understanding of our clients' markets enables our experts to extrapolate the implications of relevant regulations and practices specific to each jurisdiction in which they operate.
